

## CS3STHLM Newsletter December 2020

**Hohoho!**

When you read this Stockholm has passed the winter solstice (Mo 21 Dec 11.02 local time) and is finally going in the right direction! At least regarding daylight time, which with Sweden's zero hours of visible sun should not be too hard to achieve ☺. We are also near the holidays, which we would like to celebrate by giving you all a gift!

### **Ross Anderson's presentation on the CS3STHLM YouTube channel!**

The keynote presentation from CS3STHLM 2020 has been uploaded to our YouTube channel. The keynote was given by the inspirational Ross J Anderson, Professor of Security Engineering at the Department of Computer Science and Technology, at the University of Cambridge. So we wish you all a **Happy Hogmanay** with this link to the presentation:

Many of you might have heard of the ongoing **SUNBURST/SOLORIGATE** incident. This is a major incident and the impact grows while the investigations uncover more and more TTP's, victims and other info. Many of CS3sthlm alumni has been active in covering this, done in-depth analysis or helpt creating tools to do post mortem analysis. Here are some of them:

\* Joe Slowik has a great text at the Domaintools blog -

<https://www.domaintools.com/resources/blog/continuous-eruption-further-analysis-of-the-solarwinds-supply-incident>

\* Kim Zetter has covered several things including early signs -

<https://news.yahoo.com/hackers-last-year-conducted-a-dry-run-of-solar-winds-breach-215232815.html>

\* Erik Hjelmvik has a tool to reassemble victim data -

<https://www.netresec.com/?page=Blog&month=2020-12&post=Reassembling-Victim-Domain-Fragments-from-SUNBURST-DNS>

\* Rob M. Lee of Dragos has been interviewed multiple times, for example for CBS new - <https://twitter.com/i/status/1339720071946625033>

### **CS3STHLM 2020 Video on Demand tickets are for sale!**
